### PROJECTS

#### MY PORTFOLIO

My portfolio is a dynamic and responsive website created using React, a popular JavaScript library. It serves as an interactive showcase of my professional achievements, skills, and projects. Designed for optimal user experience across various devices, it highlights my commitment to modern web development practices and my ability to deliver visually appealing and functional web solutions.

[VIEW SOURCE CODE](#)

#### ECCOMERSE WEBSITE

I've developed a feature-rich e-commerce website, employing HTML, CSS, and JavaScript on the front end, while utilizing Node.js and Express.js for the back end. This includes a custom database for seamless product and user management. The platform encompasses a product catalog, user-friendly shopping cart, and an admin portal for efficient product and user administration.

#### MAZE GAME

It's a maze game with a movable ball controlled by 'w', 'd', 's', and 'a' keys. The objective is to navigate the ball to the target box.
